

# Visceral Manipulation: Abdomen 1

**Dates:** Oct. 7-10, 2010

**Location:** Seattle WA  
Minneapolis, MN

**Instructors:** A Member of the Jean-Pierre Barral International Teaching Team

**Fees:** \$795 - Early Reg Discounts Available

**Registration:** [www.barralinstitute.com](http://www.barralinstitute.com) • 866-522-7725

**Credits:** This course is approved for 24 Category II IASI CE Credits

**Course Description:** In VM1 you will study the models and theories of functional biomechanics as viewed from Barral's innovative approach. Course Highlights: • Learn manual skills to locate, evaluate and normalize primary areas of dysfunction within the abdominal cavity. • Explore the dynamics of motion and suspension in relation to organs, membranes and ligaments. • Examine the relationship of organs and structural or neuromusculoskeletal dysfunction. • Assess the quality of functional activity and somatic structures as they relate to an overall pattern.

**Instructors Bios:** All Teachers who are members of the Jean-Pierre Barral International Teaching Team are clinical practitioners first and teachers second. They have done extensive studies with Jean-Pierre Barral, the developer of Visceral Manipulation, and have successful clinical practices so when they teach, they teach from experience. They continue to meet annually with Barral for additional training and updates on the clinical work.
