

IASI Symposium 2010
“One World, One Work, Creating the Future”
May 7 – 9, 2010, Denver, Colorado
Hyatt Regency Tech Center, 7800 E Tufts Avenue

Mark your calendars for the weekend of May 7-9, 2010, for the third IASI Symposium. It seems impossible that it has been two years since we came together for the last Symposium and the groundbreaking first [Fascia Research Congress](#). Make sure to be there as the international SI community comes together once again for what will be an unforgettable 3 days; jam-packed with education, insight, networking and fun. The work of Dr. Ida Rolf, Structural Integration, has diversified and spread throughout the world in the last 30 years. We come from many different schools and countries, yet we share a common origin. It is indeed a special time when so many treasured and gifted members of the international SI world can share the same space. Together we share **One World, One Work**, and the privilege and duty to **Create our Future**. Dr. Rolf said, *“Form and function are a unity, two sides of one coin. In order to enhance function, appropriate form must exist or be created.”* To enhance the function of our SI community, it requires the appropriate form for our organization. Our assignment is to do this together. Please plan to be a part of this worldwide SI reunion:

“One World, One Work, Creating the Future”

With this Symposium we will be celebrating and exploring some of the many aspects of SI. We are privileged to showcase an exciting lineup of keynote and breakout presenters which include some of the most respected and revered individuals in our profession.

Rosemary Feitis – worked extensively with Dr. Rolf in the early days of Rolwing®. She was Dr. Rolf’s assistant in writing [Rolwing](#), editor of [Rolwing and Physical Reality](#), and co-author of [The Endless Web](#). She received her degree in osteopathic medicine in 1991, and practices a combination of Rolwing® and classical homeopathy in New York City.

Michael Salvesson – was trained as a Rolfer® by Dr. Ida P. Rolf in 1970. In 1972 he assisted Dr. Rolf in training classes and was certified as a Rolwing Instructor by her in 1973. He has been in active practice in the San Francisco Bay Area for 38 years and an Instructor for the Rolf Institute’s Advanced Training for 22 years. He was Chairman of the Board of Directors of the Rolf Institute from 1976-1979 and President from 1979 to 1982. He continued Dr. Rolf’s work by co-developing the curriculum of the Rolf Institute’s Advanced Training, in particular, developing techniques to work with the deep fascia of the ligamentous bed and the body’s articular surfaces.

Serge Gracovetsky – a graduate of the Swiss Federal Institute of Technology in 1968 in nuclear physics. and earned a PhD in Electrical Engineering from the University of British Columbia Canada in 1970. Interests lead him to study the analysis of the injury process by military jet pilots during emergency ejection, the study of the human spine, and the study of the reasoning process of low back pain diagnosis. He was a tenured faculty member at Concordia University in Montreal Canada for 27 years. In addition, he founded and controlled four technological companies developing products in the field of measurement of the function of the spine. These companies exploited the concept that the spine is the primary engine driving the pelvis during gait.

Robert Schleip, Ph.D – Rolfer® for 30 years, and is directing the Fascia Research Laboratory at the University of Ulm in Germany. Co-initiator of the highly successful 1st International Fascia Research Congress at Harvard Medical School in Boston in 2008, and was involved in organizing the 2009 Fascia Research Congress. His pioneering work on fascial tonus regulation was recently covered in a news article in Science magazine. He is Research Director of the European Roling Association, a Feldenkrais® Teacher, and a long term faculty member of the Rolf Institute® of Structural Integration.

Monica Caspari – Monica became a Rolfer in 1989, joined the Rolf Faculty in 1994 and has been studying with Hubert Godard since 1999. She has taught in Brazil, United States, Australia, Germany and Japan. Her special curiosity is the interface between structure and function – especially how to elicit a new expressivity from the client. Monica's articles have been published in the journals of the Rolf Institute, the Brazilian Rolfers` Association and in the IASI's Yearbook. She independently published Mindful Movement, a book on Rolf Movement techniques edited by students under the guidance of Robert Schleip.

Breakout session leaders include (in alphabetical order):

Donna Bajelis, Founder of the Institute of Structural Medicine

Luiz Bertolucci, Clinical physician (Physiatrist), Rolf Institute® instructor

Karen Bolesky, Director Soma Institute of Neuromuscular Integration®

Anita Boser, Hellerwork Practitioner

Molly Bracket, Rolf Method Structural Integration Practitioner

Jeffrey Burch, Rolf Method Structural Integration Practitioner

Dr. Tom Findley, Clinical physician (Physiatrist), Co-Director, Center for Healthcare Knowledge Management VA Medical Center

Siana Goodwin, Rolf Method Structural Integration Practitioner

Herbert Grassman, Co-founder of SKT, Strukturelle Korpertherapie, and TraumaSomatics, Advanced GSI practitioner

Don Hazen, Chiropractor & Certified advanced Rolfer

Kevin McCoy, Rolf Institute® instructor

Bob Schrei, Certified Advanced Rolfer, cranial-sacral therapist, co-originator of SourcePoint Therapy

Ray McCall, Advanced Rolfer, Rolf Institute® instructor

Liz Stewart, Advanced Practitioner in Structural Integration and Movement Awareness, Guild for Structural Integration instructor

Sharon Hancoff, Certified Advanced Rolfer and Rolf Movement Practitioner

Mike Waefler, Rolfer®, Rolf Movement Practitioner and Feldenkrais® teacher.

“Days with Dr. Rolf” ~ If you have ever wondered what it was like to work directly with Dr. Rolf, you will not want to miss this panel. Join **Jim Asher**, **Sharon Hancoff**, and **Tom Wing**, three of the “original cast” from the early days of the Dr. Rolf’s trainings. They will be sharing pictures, stories, and adventures from their “*Days with Dr. Rolf.*”

“Looking to the Future” ~ Join with the visionaries of our work in a plenary session where they will address the question of, ‘What is SI’s cutting edge in our new world?’

“IASI Annual Meeting” ~ This is an opportunity for members of the IASI and the IASI Board to get together, face to face. IASI is a membership organization, and the Board is dependant on member's feedback to make the informed decisions that shape our group. See you at the meeting!

Check out the [schedule of events](#) and [Workshop Information](#) to make your plans today!

This is an opportunity to celebrate as a community; we are a worldwide community with a common origin, let’s celebrate together! This will truly be a wonderful forum for the many voices of SI.

To register for IASI Symposium 2010, go to [EVENT](#)

The IASI Symposium will be held at the Hyatt Regency Tech Center in Denver. Room block discounts are available for registrants at \$75.00 single/double occupancy. You must reserve by 04/15/2010 to receive the group discount.

To reserve rooms at the Hyatt:

<http://www.techcenter.hyatt.com/hyatt/hotels/index.jsp>

Or call their toll free reservation line: 1-800-233-1234; Non-Toll Free: 1-303-779-1234, and be sure to tell them you are with the [“IASI Group, #G-5IAS”](#)

Getting There

For those driving, the link for maps and directions will help you find the best route:
<http://www.techcenter.hyatt.com/hyatt/hotels/services/maps/index.jsp>

Complimentary parking is available for all attendees.

For those flying, Denver International Airport is your destination. Below are phone numbers for shuttle services that will take you from the airport to the Hyatt Regency Tech Center.

To/From Denver International Airport:

Super Shuttle: Cost: \$19.00 one way or \$34.00 round trip. The phone number for Super Shuttle is 303-370-1300 or 1-800-Blue-Van

Taxi Service: The following companies provide service to/from the airport:

- Yellow Cab: 303-777-7777
- Metro Cab: 303-333-3333
- Freedom Cab: 303-444-4444

Cost: Approximately \$45.00-\$65.00 per trip to and from the airport

Sedan/Limo Services: The following companies provide airport transfers.

- Centennial Limo: 303-564-3859
- Signature Limo: 303-434-3277

Amtrak- The station is located in downtown Denver at Union Station, approximately 17miles or 25 minutes via taxi. Taxi cost is about \$30.00/person. You may also use the new Light Rail service, which travels directly from Union Station to Belleview Station on the E line, one block from Hyatt Regency Denver Tech Center.

Local Transportation

Hyatt Shuttle

Hyatt Regency Denver Tech Center offers complimentary shuttle service within a five-mile radius of the hotel, including Park Meadows Mall. Availability is on a first-come, first-serve basis. Any requests for trips further than five miles will be

assessed a service charge. Please inquire at the Concierge desk for more information and schedules.

Light Rail Service: Travel to downtown Denver in just minutes via Light Rail. A new stop is located at the Belleview Station, on the E line, only one block from the hotel. Light Rail maps are available at the Concierge desk or at <http://www.rtd-denver.com/>
